# International Fire & Safety EXPO KOREA Post Show Report

---

**exco**

## Fire EXPO is.....

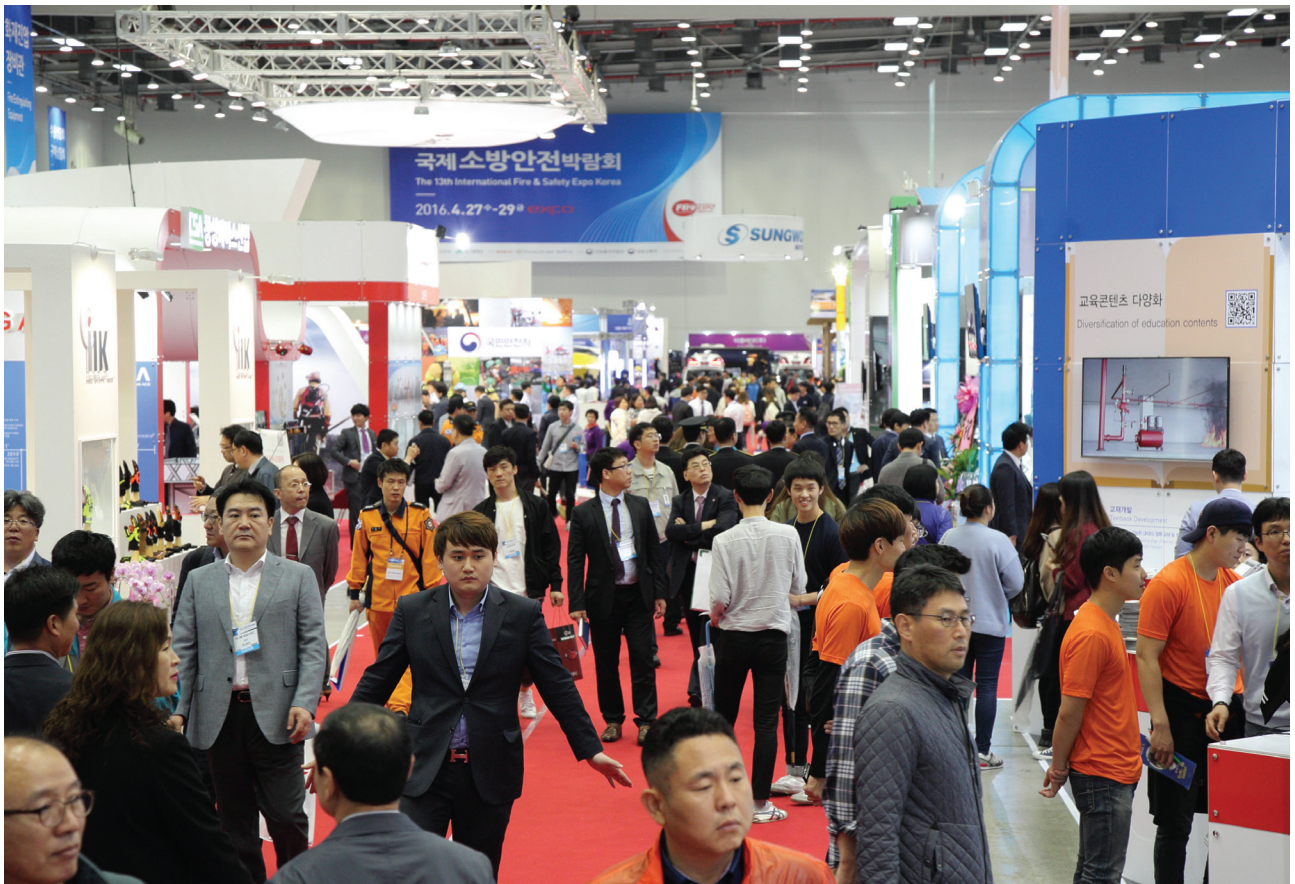

Ministry of Public Safety and Security and Daegu Metropolitan City has hosted Fire & Safety EXPO KOREA for the last 13 years, as this is the only exhibition in Korea that specializes in the Fire Industry.

It is also sponsored by the Ministry of Trade, Industry & Energy and the Ministry of Land, Infrastructure and Transport.

This exhibition is the best platform for opportunities to showcase your products, as well as network with key clients.

## Why Fire EXPO KOREA

1. The only Exhibition you can see in KOREA!
2. The Most Comprehensive Event!
3. The Most Reputable Event!

## 4 About organizers

### Ministry of Public Safety and Security

Ministry of public safety and security is a central administrative agency newly established on November 19, 2014. In accordance with the amendment of the government organizing law that took place on April 16, 2014, the security personnel and tasks of the Security Administration were transferred and the marine traffic control center under the Ministry of Maritime Affairs and Fisheries was transferred to the National Emergency Management Agency and Maritime Police Agency Absorbed and integrated as a ministerial-level ministry.

The main responsibilities of the Ministry of public safety and security include the establishment and management of safety and disaster policies, coordination and coordination, emergency preparedness and civil defense, fire and disaster prevention, maritime safety, pollution control and maritime investigation And so on. A total of eight departments are organized under the two countries including the Fire Protection Policy Bureau and the 119 Rescue and Emergency Bureau to carry out specific tasks such as fire fighting related policies and systems, protection investigation, fire fighting industry, rescue and first aid, life safety and fire fighting equipment. Maritime Security and Safety Division has 14 departments under 3 countries including Maritime Security and Safety Bureau, Maritime Pollution Control and Emergency Management Agency, Maritime Safety and Inspection Agency, Maritime Safety and Security Bureau, Maritime Safety and Maritime Safety, Maritime Safety, Maritime Investigation, Maritime Investigation, Maritime traffic control, and so on.

EXCO, launched as the first regional exhibition and convention center in April 2001, has hosted various exhibitions and convention events.

Since its inception, EXCO has organized and hosted trade exhibitions focusing on local specialized industries. Representatives include Korea Fire Safety Fair, Daegu International Optical Exhibition, International Petroleum Expo, Daegu International Machinery Industry Exhibition, and International Green Energy Expo. In particular, the International Green Energy Expo has been certified by the World Federation of Exhibition Associations (UFI) and has grown into a world-renowned specialist in renewable energy.

We have successfully held international events such as 2003 Summer Universiade Competition, 2004 World Solar City Congress, UCLG ASPAC, 2005 APEC Business Forum and Daegu World Fire Fighters Competition, 2011 Daegu World Championships in Athletics, 2012 World Insect Society, 2013 And hosted the World Energy Congress. It also hosted the 2015 World Water Forum and the 2021 World Gas Congress.

Since its opening, EXCO has been planning and holding trade shows with focus on regional specialized industries like textile, machinery, glasses, renewable energy, and cutting-edge display, and consolidating its position as a regional export infrastructure. We discovered and fostered representative exhibitions of Korea like Fire & Safety Expo Korea, Daegu International Optical Show, International Textile Fair and Daegu International Machinery Industry Expo. In particular, the 'International Green Energy Expo,' certified by Union Des Foires Internationales (UFI), has grown into a world-class renewable energy expo.

## **KOREA Fire Institute of Industry & Technology(KFI)**

The Korea Fire Institute of Industry & Technology which had been contributing to national safety by taking the initiative in the fire technology of Korea since its establishment in 1977, has been reborn as the Korea Fire Institute of Industry and Technology(KFI) with the enactment of the Fire-Fighting Industry Promotion Act, on Dec. 6th, 2008. KFI is engaged in a wider range of functions, including the construction of the foundation of the fire-fighting industry, support for related business establishment, development of fire-fighting industry and its international cooperation and overseas market entry.
